Super consecutive

Rules: Apply standard sudoku rules and moreover in each 3x3 box one important number N is marked with a big circle.

Then all pairs of cells sharing an edge and containing digits with difference N are marked with small circle.

Where two 3x3 boxes meet, pairs from both of them are marked.

KP DV2 5

Multidiagonal

Apply standard sudoku rules.

Moreover no digit can repeat on marked diagonals.

KP DV2 6

Irregular untouchable

Rules: Fill in the grid so that every row, every column and every outlined region contains the digits 1 to 9. Moreover cells with same digits can not touch even in a point.

Hidden consecutive

Rules: Apply standard sudoku rules. Moreover there is one number N specific for the grid. All pairs of cells sharing edge, where the digits have difference of N, are marked.
